

"DR." HILL CONFESSES

That He Dismembered St.
Jean Girl's Body

GIRL CAUSED OWN DEATH

Hill Asserts Letter Carrier Sent Her
to Him—He Tells Where the Head
Was Thrown, and It Is
Found.

Taunton, Mass., Nov. 10.—"Professor" Frank L. Hill, the "herb doctor," indicted for manslaughter in causing the death of Anna St. Jean of Woonsocket, R. I., yesterday retracted his previous plea of not guilty in the district court here and pleaded guilty.

He confessed that he dismembered the body of Anna St. Jean after the girl had caused her death by her own hand in his office.

He declared that Letter Carrier Munroe sent her to him.

It is supposed that the dismembered body found in Tiverton, R. I., a month ago, was that of the St. Jean girl.

The dismembered portions of the body of the St. Jean girl, with the exception of the head, which has not been recovered, were found scattered along the Bulgarmarsh road in the town of Tiverton, R. I.

After the identity of the victim of the crime had been established to the satisfaction of the police, suspicion was directed at Hill and he was arrested, together with a chauffeur named Thibault, a friend of the St. Jean girl.

Thibault was subsequently released, but Hill was indicted for manslaughter. It was alleged by the police that the young woman had visited Hill for the purpose of submitting to an illegal operation, which was supposed to have resulted in her death.

In a statement made to the court, Thomas S. Higgins, Hill's attorney, said that the St. Jean girl died in Hill's office, though she was directly responsible for her own death. She fell to the floor and Hill said the lawyer believed that the young woman had fainted, and he set about applying restoratives and endeavoring to bring her back to consciousness.

After an hour of unavailing work, he came to the conclusion that she was dead, and, terrified at what had occurred, he dismembered the body and disposed of it.

The torso and limbs he scattered along the Bulgarmarsh road in Tiverton, while the head was wrapped in a black skirt and thrown into the bushes on the west side of Robinson street, near St. Patrick's cemetery in Fall River.

THE HEAD FOUND.

Reporter Comes Upon It Where Hill
Said It Was.

Fall River, Mass., Nov. 10.—The head of Anna St. Jean was recovered yesterday afternoon. It was found by a reporter for a local paper about 3:30 at the spot off Robinson street, in the bushes about 10 or 15 feet from the road, as described by counsel for Hill in his statement to the court.

It was wrapped in a black skirt, supposedly the property of the murdered girl, which she was known to have worn away on the day she disappeared.

COOMBS STARTS HOME.

The Minister to Peru Has Sailed from
Lima.

Lima, Peru, Nov. 10.—Leslie Coombs, the United States minister to Peru, sailed yesterday for Panama on his way to the United States. A great many friends bade him farewell on his departure.

CREATED A BARON.

Admiral Sir John Fisher Elevated in
Rank.

London, Nov. 10.—Admiral of the Fleet Sir John Fisher, first naval lord, has been created a baron. His elevation had been predicted for some time.

WHAT IS HYOMEI?

You Have Heard About the Catarrh Cure
The Red Cross Pharmacy Guarantees.

Hyomei is a powerful antiseptic, so powerful that it promptly destroys germ life, yet its action on the mucous membrane is extremely soothing and healing. It relieves catarrh in five minutes; it cures in a few weeks or money back.

It is made chiefly of eucalyptus and eucalyptol taken from the eucalyptus forests of inland Australia. The medical profession knows that eucalyptol is an absolutely certain germ destroyer and with the active principles of eucalyptus as a base Hyomei is made more efficient, pleasant and quick acting by the addition of thymol, an antiseptic and disinfectant largely employed in the bacterian system. Gualacool and other important medicinal agents are also included in the Hyomei formula, which, without doubt, is the greatest destroyer of catarrh germs the world has ever known.

Hyomei is a powerful, penetrating antiseptic that is pleasant to use. It does not contain a particle of cocaine, opium or any habit-forming or injurious drug. No doing the stomach when you use Hyomei. Just breathe it in through the small inhaler that comes with each outfit. Sold by leading druggists everywhere and in Barre by The Red Cross Pharmacy, \$1.00 for complete outfit.

New Pool Prices

Play in a modern pool room where it
costs less than at other places.

B. Thomas Block Merchant St.

Sarsatabs

Chocolate-coated tablets combine the most
for all stomachs and especially for those with
indigestion, dyspepsia, flatulence, gas, heartburn,
acid eructations, loss of appetite, that tired
feeling, loss of energy, and all the other
symptoms of indigestion. They are
pleasant to take and exceedingly economical.
Give great satisfaction, especially to people
suffering from indigestion. 100 cents 50
cents 25 cents. Sold by all druggists.
It Might Be Good For You.

GAS, INDIGESTION AND HEARTBURN GO

Out-of-Order Stomachs Feel Fine Five
Minutes After Taking a Little
Diapiesin Which is Absolutely
Harmless.

The question as to how long you are
going to continue to suffer from indigestion,
dyspepsia, or out-of-order stomachs
is merely a matter of how soon you
begin taking some Diapiesin.

If your stomach is lacking in digestive
power, why not help the stomach
to do its work, not with drastic drugs,
but a re-enforcement of digestive agents,
such as are naturally at work in the stomach.

People with weak stomachs should
take a little Diapiesin occasionally, and
there will be no more indigestion, no
feeling like a lump of lead in the stomach,
no heartburn, sour risings, gas on
stomach or belching of undigested food,
headaches, dizziness or sick stomachs,
and besides, what you eat will not ferment
and poison your breath with nauseous
odors. All these symptoms resulting
from a sour, out-of-order stomach
and dyspepsia are generally relieved
five minutes after taking a little Diapiesin.

Go to your druggist and get a 50-cent
box of Diapiesin now, and you will always
go to the table with a hearty
appetite, and what you eat will
taste good, because your stomach
and intestines will be clean and fresh,
and you will know there are not going to
be any more bad nights and miserable
days for you. They freshen you and
may be you feel life is worth living.

NEITHER SIDE SCORED IN MONTPELIER GAME

Burlington High and Montpelier High
Played a Zero Tie Yesterday After-
noon—Home Team Nearly
Scored.

Montpelier high school and Burlington
high battled to a zero tie on the Montpelier
seminary campus yesterday afternoon
before a crowd of several hundred
people. For the entire first half, following
Burlington's kick-off, the ball alternated
back and forth, because of the
weak defensive work of each team, which
kept it from making consistent gains.
Burlington was forced to punt three
times and Montpelier twice.

The second half was much of a repetition
of the first, the ball being punted
when each team failed to reel off the
required distance. Toward the last of
the half, Burlington lost the ball on its
44-yard line, from which point Montpelier
advanced to the 15-yard line, where
Buck tried to drop a goal from place-
ment. The kick was partially blocked
and rolled to one side of the field just
as time was up. The line-up:

M. H. S. B. H. S.
C. Smith, 10.....r. F. Palmer
D. L. 1.....r. F. Palmer
L. 1.....r. F. Palmer
Pitkin (capt.), 1.....r. F. Palmer
McNeal, 2.....r. F. Palmer
Pierce, 3.....r. F. Palmer
Tomassi, 4.....r. F. Palmer
Cullen, 5.....r. F. Palmer
Hayden, 6.....r. F. Palmer
Buck, 7.....r. F. Palmer
N. Smith, 8.....r. F. Palmer
The scores: Montpelier high school,
0; Burlington high school, 0; referee,
Slattery, Norwick; umpire, Hughes; Bur-
lington high school; linesmen, Theriault,
Burns; timers, Cutler, Potter; time, 20
and 15-minute halves; attendance, 500.

MURDERED AFTER STRUGGLE.

Shop Girl Waylaid and Killed in Cairo.

Cairo, Ill., Nov. 10.—Annie Pelley, a
clerk in a dry goods store, was murdered
here Monday night. The crime was
revealed when children found her striped
and mutilated body in an alley way-
side. Her clothing showed signs of
a hard struggle for her life, as her
parol was so bent that she evidently
had been using it as a weapon.

Miss Pelley was 24 years old. Her
parents are dead and she made her
home with her sister, a Mrs. Coffman.
Her relatives state that she had no
known enemies. Miss Pelley left the
store shortly after six o'clock Monday
evening, and carried her weekly wages
in her purse and a bundle of dress
goods. These were untouched, which
points to the fact that the attack was
made for an assault and the suspicion
is she was gagged and her clothes
were torn into shreds.

BROKE LAWS AT WILL.

Automobile Had Bribed New York Po-
licemen, It Is Charged.

New York, Nov. 10.—Charges that
graft and bribery in a new form are
rife in the ranks of New York city's
bicycle policemen, leading to practically
unrestrained violation of the speed laws
by automobiles, will be the basis of
wholesale transfers and dismissals of
bicycle and motor cycle officers, according
to an announcement made by Police
Commissioner Baker yesterday.

Commissioner Baker called attention
to the fact that during October there
were 22 persons killed and more than
100 persons injured by automobiles in
New York city. Commissioner Baker
said yesterday that speeding had be-
come such a menace because the police-
men had been working with chauffeurs
and winking at law violations in re-
turn for the free use of the automobiles
and other inducements.

CHICAGO THE COMING CITY.

This Seems to Be the View of German
Professor.

Berlin, Nov. 10.—Professor Albrecht
Penck, professor of geography in the
university of Berlin, who was the Em-
peror William professor at Columbia uni-
versity for 1908-09, delivered a lecture
here Monday night upon the impressions
of his journey around the earth. He
spoke of the magnificence of the New
York harbor at night and said that the
city with its population of nearly five
millions of people had a brilliant future.
Looking far ahead, however, he thought
that Chicago would be the greater city.

CANADA GOES SLOW ON NAVY

Some Reductions on the Pro-
posed Programme

PLAN NOW IS 3 CRUISERS

And Four Destroyers—The Anti-navy
Men Continue Their Revolt—Ger-
many Jumps Into Position of
Second Naval Power.

Washington, Nov. 10.—The Canadian
government apparently has made up its
mind as to what sort of a naval policy
it will present for the consideration
of Parliament. Instead of committing
itself to a \$20,000,000 building program,
it has decided that three second-class
cruisers of the Bristol type and four
torpedo craft to cost \$12,000,000 is enough
of a start for the Dominion. It is not
deemed wise to expend more than \$3,
000,000 annually, so the program will
extend over four years. Meanwhile it
can be increased if the government de-
sires. The orders for the vessels will
probably be placed in Great Britain,
since no yard has yet been established
in Canada capable of turning out the
ships. The bill will also provide for
Canadian training establishments for
both officers and men.

The revolt which has shown itself in
some sections of Canada, principally in
the Northwest, against the establish-
ment of a navy has received a notable
addition. F. D. Monk, the leader of
the Conservative party in the province
of Quebec, has formally announced him-
self as being opposed to the movement.
Mr. Monk declares that Canada does not
need a navy of her own, and that any
navy she could place on the seas would
be of no use in assisting to maintain
British naval supremacy. Further, he
holds that Canada is under no obliga-
tion to assist Great Britain in this re-
spect, her autonomy leaving her unfettered
and her sole duty is to look after her
own defense, for which a navy is
entirely unnecessary.

Germany Now the Second Naval Power.
Navy officers were surprised when it
was officially announced by the office of
naval intelligence that the fighting sea
strength of the eight powers of the
world shows that Germany has jumped
from fourth place—passing France and
the United States—and taken second
place behind Great Britain. The table
gives the naval situation on Nov. 1. Not
only has Germany eclipsed France within
the last year and made great gains on
Great Britain, but she has outdistanced
the United States in shipbuilding.

TAFT KEEPS AN OLD PROMISE.

Stops for a Day in Wilmington, N. C.—Is
Now Only 361 Miles from Washington.

Wilmington, N. C., Nov. 10.—Only 361
miles from Washington and the end of
his 13,000-mile journey, President Taft
stopped yesterday in Wilmington in ful-
fillment of a promise made at Charlotte
last spring to once again visit the old
north state.

The president's train arrived from
Florence before daylight and picked
up in a quiet place in the railroad yard.
Mr. Taft slept until nearly 8 o'clock.
He arose then to be met by a local
committee, and was escorted to the home
of James Sprunt for breakfast with
twenty-five of the prominent men of the
city. Mr. Sprunt is the German consul
and the British consul, and is said to
be the greatest single exporter of
cotton in the world. On the way from
the depot to Mr. Sprunt's place, the
president passed through a court of
honor arranged with white columns and
young pine trees.

At 10:30 o'clock, the president boarded
the revenue cutter Seneca for a four-
hour sail on the Fear river to Fort
Caswell and return.

FOSS SPENT \$40,757.82.

The Campaign Cost Him That, Is His
Statement.

Boston, Nov. 10.—According to a state-
ment of expenses filed with the city
clerk yesterday afternoon, Eugene N.
Foss, in his campaign for lieutenant gov-
ernor, expended \$40,757.82, of which \$22,
000 went to the Democratic state com-
mittee and \$18,757.82 to the Foss cam-
paign committee.

According to the statement filed by
Joseph Weeks, treasurer of the Foss
campaign committee, \$15,000 was given
to an advertising agency and \$3,757.82
was expended on billboard advertising.

Eben S. Draper, candidate for gov-
nor, spent \$3,800.

PILES CURED IN 6 TO 14 DAYS.

PAZO OINTMENT is guaranteed to cure
any case of itching, blind, bleeding or
protruding piles in 6 to 14 days or
money refunded. 50c.

WOULD JAIL TIGERS.

Detroit Base Ballers Threatened with
Cuban "Jugging."

Havana, Nov. 10.—The Detroit Amer-
ican league base ball team, which is tour-
ing Cuba, struck a snag Monday in the
Almendares team, which club defeated
the visiting Americans by the score of
13 to 2. In the third inning McIntyre
called his men off the field when the
umpire sent a man to first on a balk
with the bases filled. The team resumed
play only after it was threatened with
arrest.

How to Save Time Washing Dishes.

Very few housewives realize the
amount of time they spend in the kitchen
dishwashing, although they do ap-
preciate its tiresome routine. However,
if handled in a systematic way this task
would not take one-half as long as
it does now. The first step is to get a
plenty of towels and hot water. Scrape
the dishes clean as possible and those
most soiled should be rinsed in hot or cold
water before putting in the dish pan.
White of egg, gelatine and similar sub-
stances should be removed from dishes
with cold water. Greasy foods require
hot water. Cover the dishes with hot
water, in which a tablespoonful of Gold
Dishwashing Powder has been dis-
solved. This is more convenient and effective
than soap. Wash, rinse in clean, warm water
and dry.

Men Are as Help- less as Children

When Taken Suddenly Ill—Here Is a
Common-sense Safeguard.

Big, strong men are as helpless infants
when he is suddenly ill. The sturdiest
chap in town usually loses his self-control
and is utterly unable to regard his
condition with the common sense that
characterizes his everyday actions.

For example: he comes home tired,
eats a heavy dinner, and sits down to
read and smoke away a quiet evening.
Suddenly he notices a weight on his
stomach; then sharp pains around his
heart and a feeling of suffocation.
Thoughts of "heart disease" rush over
him, and in his agony he fears the worst.
His trouble was acute indigestion
brought on by overloading his tired
stomach.

A couple of Dyspepsia Tablets would
have given him instant relief—would
have saved him hours of suffering.

Carry a package of Rexall Dyspepsia
Tablets in your vest pocket, or keep
them in your room. Take one after
each heavy meal and indigestion will not
bother you.

Rexall Dyspepsia Tablets remedy
stomach troubles by supplying the one
element, the absence of which in the
gastric juices causes indigestion and dys-
pepsia. They aid the stomach to digest
food and to quickly convert it into rich
red blood and material necessary for
overcoming natural body waste.

We know what Rexall Dyspepsia Ta-
blets are and what they will do. We
guarantee them to relieve indigestion
and dyspepsia. If they fail, we will
refund your money. Three sizes: 25
cents, 50 cents and \$1.00. Remember,
you can obtain Rexall Remedies in Barre
only at our store—The Rexall Store.
Red Cross Pharmacy, Burt H. Wells,
proprietor.

CALLS ARTICLE TISSUE OF LIES

Secretary Ballinger Pays His Respects—
Statements of L. R. Glavis in
Collier's Weekly.

Washington, Nov. 10.—Secretary
Richard A. Ballinger of the department
of the interior, yesterday afternoon, is-
sued the following statement:—

"My attention has been directed to
the text of an article purporting to
have been written by Mr. L. R. Glavis,
which is to appear in Collier's Weekly,
and advance copies of which have been
furnished by that weekly to the press.
"The Glavis story is a tissue of false-
hoods and insinuations utterly unwar-
ranted, in view of the facts easily ob-
tainable by anybody who wants them.

"It is not surprising that a publica-
tion which could in pursuit of this same
propaganda, recklessly, under date of
Oct. 30, reproduce a view appearing on
a familiar railroad folder of the Grand
River canyon in Colorado, as a picture
of an available power site which was in
danger of unlawful acquisition on the
South Platte river, 200 miles away and
across the Continental divide, should be
willing, without the slightest effort to
ascertain the real facts, to give wings
to a story which has heretofore been
submitted to so great and just a man
as the president of the United States
who, after a careful consideration of
the same, having before him the entire
files of the continental land office and of
the secretary of the interior, relating
to each and every one of the matters
presented, pronounced the same dis-
ingenuous and without justification.
The statement of Glavis has gained
nothing either as to its veracity or
justification in the interval since its
presentation to the president."

ORAL BETTING HELD LEGAL.

New York Court of Appeals so De-
cides.

Albany, N. Y., Nov. 10.—Oral betting
does not constitute bookmaking within
the meaning of the so-called anti-racing
track gambling laws. This is the effect
of the decision of the court of appeals yester-
day, affirming an order of the lower
courts for the discharge from custody
of Orlando Jones and Sol Liechtenstein,
who were indicted in King's county on
a charge of bookmaking.

Jones and Liechtenstein were charged
with orally laying and publishing odds
on horse races and accepting a bet on
the basis of such odds. Assistant Dis-
trict Attorney Elder of King's county
contended that bookmaking was the
scheme which consists of the laying of
odds for the purpose of getting bets
and that while memoranda might be
useful as an aid to the person who
conducts the business, yet it had no es-
sential part in the transaction. He held
that it is not necessary that a bet
should be made, nor accordingly, record-
ed, for bookmaking to be engaged in.

John B. Standfield and Joseph A.
Auerbach, counsel for Jones and Liech-
tenstein, contended that the only effect
of the new laws was to provide a uni-
form penalty to the recording and
registry of bets wherever made and
over and above this he lowered the grade
of the crime from a felony to a misdemeanor.
The prevailing opinions of the court
of appeals are written by Judge Haight
and Chief Judge Cullen, in which Judges
Wilford, Bartlett, Hisecock and Chase
concur. Judge Vann wrote a dissenting
opinion. Judge E. T. Bartlett did not
sit. In his prevailing opinion, Judge
Haight concludes: "We conclude that
the information filed by the district at-
torney failed to allege acts which consti-
tuted the crime of bookmaking, and that
therefore the order appealed from should
be affirmed."

AUTOIST ON UNIQUE PAROLE.

He Escapes Ten-Year Sentence Only So
Long as He Pays \$25 a Month.

Sacramento, Cal., Nov. 10.—Judge
Hughes, yesterday, imposed a sentence
of ten years in the penitentiary at Fol-
son upon Claude Wood, convicted of
robberies for money and killing
James F. Smith, and, at the same time,
ordered that the commitment be
withheld and the defendant placed on
probation. In the terms of the proba-
tion is included a provision compelling
Wood to contribute \$25 a month
towards the support of the five children
he made fatherless by his reckless
driving.

IN LOCAL MARKETS

Prices are Quiet But Firm
To-day

FRESH EGGS ARE HIGHER

Ricker's Market Reports Markets Steady
Although Sheep and Lambs Are a
Shade Lower—Boston Butter
Market Dull.

Barre, Vt., Nov. 10, 1930.

Prices quiet but firm, with fresh eggs
higher. Wholesale quotations:

Dressed pork—10½c.
Dressed veal—9@9½c.
Fowls—15@16c.
Chickens—17@18c.
Lambs—10½@11c.
Fresh eggs—33@35c.
Butter—Creamery 34c, dairy 33c.
Winter apples—\$2.50@3.50 per bar-
rel.
Potatoes—40@45c barrel.

RICKER'S REPORT.

Shows All Markets Steady—Sheep and
Lambs Shade Lower.

St. Johnsbury, Nov. 10.—Ricker's mar-
ket reports all markets steady except
heavy grass calves, which are lower.
Sheep and lambs are lower. The re-
ceipts for the week are:
Poultry—7,000 pounds, 9@10c.
Lambs—450, 3@5½c.
Hogs—150, 6½@7½c.
Cattle—225, 1½@4½c.
Calves—380, 30c.
Milk cows—20, \$27@35c.

IN BOSTON MARKETS.

Butter Continues Dull and Eggs Hold
Firm.

Boston, Nov. 10.—Butter continues
dull in the local market and a somewhat
easier feeling is apparent, following a
decline of 1c in New York and ½c
in Chicago. Dealers who have sold fine
fresh northern creamery at 34½c, and
have been asking that price are now
willing to sell at 34c and 33½c would
probably make something that does not
measure right up to the mark. The re-
ceipts of strictly fancy fresh goods are
small and are constantly decreasing, but
the demand is limited, owing to the free
use by retailers of their cold storage
holdings. There is some surplus of fresh
goods, in consequence, and the receiver
is forced either to store it or to sell
at a discount; the latter course is more
general just now. Cheese holds firm,
though trading is quiet. Fine fresh eggs
hold firm, but they are no higher and
not expected to advance as they are now
at a point where a further rise could
not help but hurt the demand.

Butter—Fancy northern creamery,
tubs 34½@34c, boxes 33½@33c, prints 35
@36c, western ash tubs 32½@33c, fair to
good creamery 29@31c, fine storage
creamery 28@30c, dairy 30c@31c.
Cheese—New York full cream fancy
17@17½c, Vermont 16½@17c, Wisconsin
Young America 18@18½c, sage 17½
@18c.
Eggs—Fancy hennessy 45@50c, choice
western 43@45c, fresh western 35@40c,
storage 28@30c.

GRAIN CROPS ESTIMATED.

Winter Wheat 432,920,000 Bushels and
Spring Wheat 291,848,000.

Washington, Nov. 10.—Supplemental
to the report issued Monday by the agri-
cultural department giving the estimated
condition and prospective production for
1900 of corn and other crops, the bureau
of statistics of the agricultural depart-
ment yesterday gave out preliminary
estimates of the production of the crops
named as follows:

Winter wheat, 432,920,000 bushels;
spring wheat, 291,848,000 bushels; oats,
985,018,000 bushels; barley, 164,636,000
bushels; rye, 31,000,000 bushels.

FALL SHEARING AND DIPPING.

Not a Very Wise Proceeding, But May
Be Done.

Very few people shear their sheep in
the fall, and on the whole it is not an
advisable practice, says Farm, Stock
and Home. Observation and experi-
ences have established that but very
little, if any, greater total fleece is se-
cured by shearing twice a year; in other
words, the normal growth of the fleece
is only about as much each year, and
whether one gets it at one or two clips
does not affect the growth. One does
the work twice; he runs the chance of
leaving his sheep with too slight pro-
tection for winter, thus causing them to
have snotty noses and colds as well as
to use more feed for keeping warm, and
over and above this he lowers the grade
of his wool, as length of staple is one of
the features that counts, and 2½ are
not worth as much as one three-inch
staple.

For all these reasons it is not wise to
shear the regular flocks, that is, the old
sheep in the fall. It may be wise to

BUILDS UP THE THIN AND WEAK

Samoa Makes Thin People Fat, or D. F.
Davis Will Return Money.

In Samoa are combined flesh-giving
food elements that soon produce a steady
and noticeable gain in flesh. Taken after
meals, Samoa mingles with the food,
and causes it to be assimilated so that
the fat producing elements are retained
in the system, and you will soon get
good flesh, steady nerves and a healthy
body.

D. F. Davis has seen such remarkable
results following the use of Samoa, that
he offers to pay for the treatment if it
does not make thin people plump and
rovy.

You run no risk whatever in buying
Samoa; it is a true flesh-forming food
and is sold under the guarantee of one
of the most reputable business houses in
